
World's 1st HD Mobile Viral videos The practice of uploading video content to the Internet has become a social phenomenon. The term "viral video" refers to the phenomenon whereby a short, often humorous video goes viral, passing from one user to another, often gaining tens of thousands, sometimes millions, of viewers within hours or days. The words "viral video" were first used in the media in the early 2000s, with examples including the footage of a meteor falling over the. As of February 2013, the YouTube site has received over three billion views per month, with many videos reaching millions of views and tens of thousands of subscribers. The term "meme" was coined by Richard Dawkins in his 1976 book *The Selfish Gene*, to refer to a concept which spreads from person to person, in much the same way as a meme. The Oxford English Dictionary has defined a meme as "a unit of cultural transmission, or a persistent, replicable idea, behaviour, or style of thought", while Dawkins defined a meme as "a unit of cultural transmission". The word was also used in a 1987 paper by the software architect Danny Goodman, to mean a computer virus. In the context of Internet videos, it has been applied to mean "a video which is so popular that a large number of other videos are made about it". The term "viral video" is often used to describe a video that spreads rapidly due to some viral video effect, such as virality, likability, or shareability. Real-DRAW v2 45 Crack Serial Key.
