Aug 12, 2020 In outlook 2016, my add-in is displayed as an inactive item and is not shown in the installed add-ins for outlook. How can I rectify this. Sep 22, 2020 Is it possible to make the add-in compatible with office 2016 64-bit? Outlook office 2013. Oct 23, 2020 Enterprise Vault Office 2016 released for Outlook 2016 and Outlook 365 users. Check it out on the TechNet site. Outlook: EnterpriseVault Add-In (word, excel, outlook) is not installed to Outlook 2016. Shen Yun opens new US tour with Chicago audiences Shen Yun Performing Arts has opened its new 2018 touring season in the US with four grand performances at Chicago's Harris Theater for Music and Dance. Featuring two master pianists and two supremely gifted dancers, the Chinese soloists are led by renowned conductor Shen Congwen and the Chinese National Orchestra in three of the evenings. The same group and conductor will be in Toronto this October to perform again at Royal Alexandra Theatre. The brief history of the Shen Yun Performing Arts was initiated in the US, Canada and England in the early 1990s. Shen Yun was first introduced in the US in 1995 and, since then, it has grown from one production to a six-city regional tour, travelling nationwide each year and presenting more than 500 shows worldwide. Shen Yun's style is rooted in ancient Chinese culture: it presents the magnificent ancient stories, ancient musical art, ancient dance and ancient philosophical ideas that mirror the true spirit and culture of the Chinese people. Shen Congwen is known as the "Prince of Conductors" and is internationally famous for his ability to orchestrate original dance dramas and music. The performance schedule is as follows: 8pm Sunday 19 October: Shen Congwen and the Chinese National Orchestra (in Chicago) with master pianist Zongyang Ma and the breathtaking dancers Li Yuanqi and Qin Lin Tickets cost \$10 for adults. Children and students with school IDs can attend for free. Tickets can be purchased at the Harris Theater box office (209 N Clybourn Ave, Chicago IL 60614, USA). cause a major portion of the charge is placed within the oxidation-reduction potential window while
