Q: Is it possible to download a remote file from a directory using PHP? I am writing a small PHP script that is going to be uploading a file to a remote web server. Is it possible to also download the file once it's finished uploading? A: You'll need some sort of proxy or webserver to handle downloads in PHP. A: You have to create an script on the remote server that will be able to serve the download file, you can do this by using FTP. You can find more info in this article : PHP FTP } .active.el-loading-mask { animation: none } .el-loading-mask.is-active.el-loading { opacity: 1 } .el-loading.el-loading-spin { opacity: 0 } .el-loading-container { overflow: hidden } .el-loading-container.el-loading-icon { animation: spin 2s linear infinite } .el-loading-container.el-loading-mask { animation: none } .loading-mask { position: fixed; top: 0; left: 0; right: 0; bottom: 0; background: rgba(0, 0, 0, 0.4); z-index: 10; -webkit-transition: all.3s ease; transition: all.3s ease } .loading-mask.loading { opacity: 1 } .loading-mask.loading.el-loading-icon { animation: none } .loading-mask.loading.el-loading-mask
