Features of KeyMacro: \* Automatically generate macros for repeated tasks, for example, generating macros for mouse movement, keyboard, etc. \* Choose KeyMacro Parameters. For example, you can generate macros for mouse movement and input in different directions. \* Store, retrieve and edit macro files from your device. For example, you can store and retrieve the settings of your PC, Mac, iOS device, or Android device. \* Monitor and synchronize your keystrokes and mouse movements at any time and anywhere. \* Work with all Windows versions and Mac OS, including the latest macOS and iOS \* If any keys pressed, the macro name will appear in the macro editor. \* You can edit and create multiple macros in one project. \* You can also share macros with other users. \* Optimized keyboard input for Windows, Mac, iOS, and Android. \* You can set parameters for the keys you want to use for macros. \* Once the setting is correct, you can use it to generate a macro for repeated tasks on your computer. \* You can also use as many switches as you like in order to generate different macros.

User Feedback \* It is very convenient and simple, It's easy to learn. \* I will remember it after I start using it. \* It is pretty good for my business, I like it. \* I use it as the windows control panel. \* It's really good, especially because I am able to use the English language. \* It's good for my PC. \* A lot of people can use it, it has good usability. \* It's cool. If you have any feedback on this, please let us know via e-mail. Kind regards, Hang Li
