64-bit is a homophone term for 64. A 64 bit computer is a computer that uses a 64-bit microprocessor, and generally uses either 64-bit (x64) or 32-bit (x86-64) operating system . A 64-bit computer (or computer system) runs operating systems and other software applications that are capable of using more than 4 GB of RAM. A 64-bit computer uses at least 2GB of RAM to run OS. When 64-bit operating systems were first introduced in early 2000s, it became widely accepted that 64-bit computing was . 64-bit OS is a 32-bit operating system that has been extended to support 64-bit programs and a 64-bit instruction set. 64-bit computer 32-bit computer 64-bit computers process more than 4GB of information per second. The 64-bit power of the CPU is the information that goes to memory. A 64-bit processor can process up to 64-bits of information per cycle. (32 bits) can process only up to 32 bits of information per cycle. 64-bit comes in many different types. A 32-bit program or 32-bit system needs only 4 GB of memory. A 64-bit program or 64-bit system needs more than 4 GB of memory. A 16-bit microprocessor can process only 16-bits of information per cycle. 62 Bits animation channel (www.youtube.com/62bits) We are back! We need to

put something up on here again. Too much to do and not enough people to do it. We are working on a new channel that I have created and the name is "62 Bits". It will be a place for "official" VoD that is up and coming from the games that the streamers have been working on for the past few months. I would also like to see that this channel would not be focused solely on COD's because that is not the goal here. The goal is to grow this community into something even bigger. I would also like to thank all of the people who have donated to this channel. You are amazing and I hope you will continue to support the channel as well as the streamers. Thank you all for watching! Largest server available now - not shutting down from the YouTube community or admins. Vast majority of the server is now on 2d92ce491b
