I'm using windows, and I'm trying to show a fixed size and a scrollable part in my browser. For now I've tryed with these two functions but with no success: function showpdf(\$PDFPath, \$PDFFile){ \$PDFPath = "C:/xampp/htdocs/project/pdf/\$PDFPath"; \$PDFFile = "C:/xampp/htdocs/project/pdf/\$PDFFile"; if (file_exists(\$PDFPath)) { header("Content-Type: application/pdf"); header("Content-Transfer-Encoding: binary"); header("Accept-Ranges: bytes"); header("Content-Range: bytes 0-\$downloadfile"); header("Content-Disposition: attachment; filename=\$PDFFile"); header("Content-Length: \$downloadfile"); readfile(\$PDFPath
