## [ Mp3 - Explorer ]

"mp3 explorer" is an explorer like file manager with all the power of a powerful file manager, the "mp3 explorer" is written in C# and C++. "mp3 explorer" come with a lot of features, but more important is the suport for the most used formats : wav, mp3, ogg, flac, mp4, oga, ape. Please read our installation page for the know how to install and set up the program. The license is ok for 2 computers Feedback If you have encountered any issues using the program please provide details (approximate date & time of occurrence, type of issue, what you were doing at the time). We take all issues very seriously and will publish all issues, good or bad, as soon as possible. Hi, My personal email is "david(a)davidi.org" if you want to contact me directly without going through our forums please email me with your feedbacks or comments on the forums. Thanks for using our software, David Hi David, Thanks for the nice work. I have a small suggestion for the "Tracks" (Main Detail) column. Right now, it displays the TrackName as plain text like "Track #1 Title". In my setup I only care about the artist, title and comment as I don't really want to make a playlist. I would prefer something like "Artist [, Title [, Comment ] ]" where the [, ]s are defined as separators. I hope you don't mind that I just wanted to suggest something since it is probably a simple change. This kind of layout is very similar to tracker's window, and I had nothing against this before. I think it's good to add the "Date" and "Bitrate" columns. The layout style could also be changed, like the old one. Let me know your thought! Hi, Thanks for the reply. I understand your point. "Title" and "Artist" could be used without the " []s. But if you add any other columns, then you have to keep the format. If you only want these 2 columns, you could add a blank column after the "Artist", and separate the dates and bitrates with empty columns. Can you point out where are the "dates" and "bitrates" columns? I think there should be none

## What's New In?

[ mp3 - explorer ] is a MP3 Manager providing advanced features such as multi-folders file scanning with cache, id3v1 and id3v2 tagging and Intellitag. With [ mp3 - explorer ] you can also get a HTML view of the tracks displaying album cover and Lyrics.
