
Official Oukitel U7 Plus (4G MediaTek MT6737M) Stock Rom

[Download](#)

Hello, I am trying to install custom firmware on my oukitel k10000. The problem is that once I did it successfully, but later I wiped the phone through twrp and now I . I'm trying to install a new firmware but I can't flash it because I can't find my phone in . I have searched the web but couldn't find anything that could help me. I have an Oukitel K10000 with an MT6753 processor running Android 5.1. I searched through the firmware on the Oukitel website This may be a problem because you can't install new firmware because you can't find your phone in "Settings -> About phone -> Maintenance -> Factory data reset".
