What's New In?

- Arabic Writer is a lightweight application that lets you convert Arabic text into Unicode, in order to integrate the language into programs which do not support Hebrew characters. - Thus, you can make them accept its Unicode translation. - Since Arabic Writer offers simple and intuitive user interface, we don't believe that anyone needs to know about the internal mechanisms of how Unicode is encoded and what for the program is Unicode. - However, if you need to understand it, Arabic Writer includes the option of enabling Unicode translation with an in-built option. - Also, Arabic Writer is not a software whose function is restricted to programming. Rather, it can be used by the both beginners and advanced users as a means for converting Arabic text into Unicode. - Finally, Arabic Writer is a complete program in the sense that it includes keyboard layouts in 7 different Arabic languages, and the Arabic-English keyboard. - Furthermore, you can configure Arabic Writer with the Arabic, Arabic with English and an Arabic and English keyboard. - After creating an Arabic Writer account, you can take advantage of text editing functions with other programs that are Unicode-compatible. - You may not have to make any changes to the programs, although Arabic Writer is written with Unicode and text format in mind. - In fact, most of the Arabic-based programs are Unicode-compatible, but you may not use it, as they are traditional programs whose functions can be achieved with Unicode, but not Arabic Unicode. - The program's interface has 2 main windows - Input and Output. - The Input window is where you compose your Arabic text, while the Output window displays it after having been converted from Arabic to Unicode. - You can write Arabic text, choose Unicode mode and the language of your preference, edit text in it, customize fonts, adjust Harakat and direction etc. - You can follow the demonstration video for a better understanding of the program's functions. Arabic Writer Features: - Arabic Writer is a simple, yet powerful application that gives you a simple, yet powerful tool to convert Arabic text into Unicode. - The program does not require you to run some other languages as a pre-condition to be used with Unicode. - Arabic Writer can work with any program that can support Unicode, regardless of the software's nature. - Moreover, you do not have to learn Arabic Unicode characters, as Arabic Writer lets you change language to Unicode through the available options. - Arabic Writer has the ability of converting standard Arabic text into
