The variable 'text' changes dynamically according to the message. I am trying to have the text to be print in different fonts. string text = "This is text"; foreach (var character in text) { char nextChar; if (char.IsLetter(character)) { nextChar = char.ToUpper(character); } else { nextChar = char.ToLower(character); } Console.WriteLine(" " + nextChar + " "); } When I run the code, it prints the next character in one font. I tried doing something like this: foreach (var character in text) { if (char.IsLetter(character)) { Console.WriteLine
