The system was initially trialed by EA Sports in FIFA 19 and has since been used by the publisher to deliver a host of new and improved gameplay features in the following games: FIFA 20, FIFA 19 and FIFA 18. It's also been extensively used for the development of highly-anticipated EA Sports titles

FIFA 19 The Journey and FIFA 20 The Journey, which represents the first significant crossover between player creation in The Journey and the gameplay in a FIFA release. Read more: Uncharted: The Lost Legacy review FIFA 19 and FIFA 18 FIFA 19 saw the introduction of "HyperMotion", which is a revolutionary player motion capture technology. It revolutionised the way players run, run through tackles, collect the ball, and, most notably, how players strike the ball. The system also allowed for enhancements to the existing "Physics" and "Strength & Stamina" technologies to create fluid and more accurate on-ball behaviours. FIFA 18 introduced the "HyperMotion" technology into gameplay.

FIFA 18's new Motion-controlled shooting system also utilised this technology. All of FIFA 19's and FIFA 18's HyperMotion gameplay features are available on all three platforms: PlayStation 4, Xbox One, and PC. FIFA 19's improvements in player motions have been so striking that players' performances in FIFA 19 have quickly caught up to players in the real football world. The

HyperMotion gameplay changes have been so striking that players in the Real Football 17 World Cup game have caught up to the pros. FIFA 19 compared to FIFA 17 FIFA 19 was released on 25th September in North America and Europe. It was the first time in the history of FIFA that the game was not released on the same date across all three formats in the same region (PS4, Xbox One, and PC). Read more: FIFA 19 new players guide Players noticed the changes almost instantly upon starting the game. When FIFA 19 ships on console, the game goes through a mandatory system update before you can play the game. The update has been identified by EA Sports as "Technical".

We were once again able to witness the benefits of the upgraded EA SPORTS Football Engine, particularly on the ground. It certainly felt more realistic to have boots and studs digging into the ground. Players also reacted to ball movement more dynamically. The
