In addition to pharmacological treatment of schizophrenic psychoses, psychotherapy is playing an increasing role. The impact of psychotherapy has been demonstrated by numerous studies on the aetiology of schizophrenia. The prognosis is better the later the disease begins and the shorter the duration. The efficacy of psychotherapy depends on the motivation and interest of the patient in the treatment. The psychotherapeutic intervention has been developed by relationship-oriented psychiatry, which emphasises the importance of the physician-patient relationship. Brief therapy and psychodynamic psychotherapy seem to be more effective. As regards the course of schizophrenic psychoses psychotherapy comprises a variety of interventions. In schizophrenia up to 30% show a chronic course with relapses. The treatment of choice in the chronic course are group and individual psychotherapy, and in the acute phase antipsychotic medication and short-term psychotherapy.Hebert I, Count of Maine Hebert (; died 11 August 1086), also known as Hugh of Maine (;), was the Count of Maine from 1051 until his death. His reign was succeeded by his son William. Biography Count Hugh I of Maine is named in surviving documents as count of Maine until the end of 1061. The most recently-identified document is an entry in a 1061 deed, by which Count Piro (presumably Raymond III of Tosny) sold to Hugh his son Raymond and his barony of Hasli to the Abbey of Saint-Remi in Rennes. It has been suggested that this sale was made in response to conflict over the succession to the

I want to display an image from a database which i have a url of and i want to display that image.I am using MVC 3 for project and i am also using jquery. I want to know that can i do it? A: In MVC you have to use an Image Control Here is a Tutorial on how to do it. It shows both ways: Server Method - retrieve image [Authorize(Roles = "Admin")] [HttpGet] [ResponseCache(Duration = 30, Location = ResponseCacheLocation.None, NoStore = true)] public ActionResult RetrieveProductImage(int id) { var product = db.Products.Find(id); return this.File(product.ImageUrl, "image/jpeg"); } Client Method - AJAX function RetrieveProductImage(id) { $.ajax({ type: "GET", url: "@Url.Action("RetrieveProductImage")", dataType: "html", data: { 'id': id }, success: function (data) { $('#DisplayImage').html(data); } }); } Q: I am not able
