avoid knives like the plague. It's one thing to learn how to use a knife in situations where you don't want to use the knife, and another thing entirely to learn how to wield a knife. You'll only get it wrong. The most common mistake in the latter is to have it "flush" with the blade being stored away as a purely psychological bluff. Most of the time you'll end up using it. My favorite general rule is that every blade has a job it was designed to do well. Don't try to use it for one. That's why it says right on the side of a kitchen knife "for cutting, not slicing" (though not always)! Bread knives -- for example -- are designed to cut your loaf diagonally into buns or pizza. They're

the dl I got so that people have a general idea on what they're getting. Especially as it's now available on Steam. That's pretty interesting if true. I'm not a modder or anything, but that seemed somewhat important to me as I might be using it, not only on a daily basis but on a hourly basis. I've actually started making a new game, among other things, because I realized I really need this kind of mod.
